

The ensuing year viz:-

Chief Officer Nockolds, Second Officer Gracey, Third Officer Taylor
Engineers Farling, Baker & Prior & Firemen White & Miller with
Mr. A. E. Kirkby

Webster Testimonial

It was resolved on the motion of 3rd Officer Taylor seconded by Engineer Baker to subscribe £1. 1. 0 from the Funds of the Brigade to the proposed Testimonial to Mr. W. G. Webster who was retiring from the General Secretaryship of the National Fire Brigades Association

Second Officer Gracey

The Secretary was directed to write Second Officer Gracey expressing regret at his inability to attend the meeting through illness & the hope that he would soon be restored to health

Attendance at Drills

A discussion arose as to how a member of the Brigade should be marked in the attendance book. Should he be absent owing to his being at work at the time drills take place

It was decided that in every case of absence from whatever cause the member should be marked absent. & that the Committee have power to decide appeals on the ground that a member was unavoidably prevented from attending - It was however to be understood that the mere fact of nonattendance through working overtime was not to be considered a sufficient excuse

Bryan Nockolds
